How We're Keeping our Teams & Customers SAFE

- Our Pandemic Preparedness Plan outlines the steps we are taking on our jobsites to ensure the SAFETY of our teams and yours. Our plan ensures that a suspected or confirmed case of COVID-19 triggers an immediate response from our SAFETY team, including contact tracing and formal notifications. (To review a copy of our plan, please contact SAFETY@mesaproducts.com).
- We encourage any employee or business partner (vendor, subcontractor, or customer) who feels sick to let us know as soon as possible.
- Teams are provided with PPE, disinfectant, and other cleaning supplies, as needed. Packages of these supplies are available to ship to our field teams on-demand. Our construction crews are encouraged to wear facial coverings when working in close proximity to others.
- Facial coverings are required in the Tulsa facility, where our manufacturing team continues to produce shipments without delay. We have also implemented social distancing standards and have limited access to the Tulsa facility to essential personnel.
- We will comply with all customer requirements to ensure SAFETY in execution of our work. We do not anticipate any delays in shipments or project scheduling due to the pandemic. Your projects are important to us and we remain committed to delivering materials and executing work in a SAFE, timely, and value-added way.
